Revisions to School Health Services Regulations Effective July, 1, 2018.

The district's School Health Services program supports your student's academic success by promoting health in the school setting. One way that we provide care for your student is by performing the health screenings as mandated by the State of New York.

During this school year, the following screenings will be required or completed at school:

Vision

• Vision screening for distance and newer vision acuity will be required within 6 months of admission to school and in grades Pre-K or K, 1, 3, 5, 7, and 11.

Hearing

Hearing screening utilizing pure tone testing will be required within 6 months of admission to school and in grades Pre-K or K, 1,
 3, 5, 7, and 11.

Scoliosis

Scoliosis screening will be required in grades 5 and 7 for girls and grade 9 for boys.

Health Appraisals

Health examinations will be required in grades Pre-K or K, 1, 3, 5, 7, 9, and 11.

Dental Certificates

A dental certificate is requested for all newly entering students and students in grades Pre-K, Kindergarten, 1, 3, 5, and 7.

A letter will be sent home if there are any findings on the screening done at school that would cause concern or need medical follow-up. Please call the school's Health Office (315-455-7571, ext) if you have any questions or concerns.

Lead Screening (Required)

NYS PUBLIC HEALTH LAW ARTICLE 13, TITLE 10, SECTION 1370 - 1376-A STATES THAT:

- Prior to or within 3 months of initial enrollment, schools are required to obtain from the pre-school child's parent or guardian, proof that the child has had a blood lead test.
- If evidence of blood lead testing has not been received within the 3 months of initial enrollment; the parent or guardian is:
 - o To be given information about lead poisoning; and
 - To be referred to primary health care provider or local health department.
- The child's cumulative health record must indicate either the date of the lead screening or that information on lead poisoning referral was provided.

Though the requirements above must be completed, a student lacking proof of lead testing may not be excluded from school (unlike failure to comply with immunization requirements).

See Attachment B for additional information on lead poisoning.

Medicaid Consent

		ardia	

This is to ask your permission (consent) to bill your or your child's Medicaid Insurance	Program for special education and related
services that are on your child's individualized education program (IEP) and to ask you to	give us your child's Client Identification
Number (CIN) or allow us to obtain the CIN if you do not know it.	

This consent allows the	school district/county to bill for covered health-re	elated services and to relea	se information to the school
district's/county's Medic	aid Billing Agent for that purpose.		
I,	as the parent/guardian of		,
(print name of p	parent/guardian)	(please print nam	e of child)

have received a written notification from the school district/county that explains my federal rights regarding the use of public benefits or insurance to pay for certain special education and related services.

I understand and agree that the School District/county may ask for a Client Identification Number (CIN), check on Medicaid eligibility, and/or access Medicaid to pay for special education and related services provided to my child.

I understand that:

- Providing consent will not impact my child's/my Medicaid coverage;
- Upon request, I may review copies of records disclosed pursuant to this authorization;
- Services listed in my child's IEP must be provided at no cost to me whether or not I give consent to bill Medicaid;
- I have the right to withdraw consent at any time; and
- The school district must give me annual written notification of my rights regarding this consent.

I also give my consent for the school district/county to release the following records/information about my child to the State's Medicaid Agency for the purpose of checking Medicaid eligibility and/or billing for special education and related services that are in my child's IEP. The following records will be shared.

Records to be shared (such as records or in	formation about services your child receives)
IEP	Medication Administration Report
Written Order/Referral	Special Transportation Log
Evaluation Reports	Other Personally Identifiable Information
Session Notes	Any Other Specific Records Pertaining to the Student's Services or Program

give my consent voluntarily and understand that I may withdraw my consent at any time. I also understand that my child's right t
receive special education and related services is in no way dependent on my granting consent and that, regardless of my decision t
provide this consent, all the required services in my child's IEP will be provided to my child at no cost to me.

Digital Equity Survey Question Guidance

That May be Used to Assist Parents with Responses

Overall:

"Device" is defined as a computing device, such as a laptop, desktop, Chromebook, iPad, or full-size tablet. "Device" for the purposes of this survey, is NOT a phone or mini tablet, nor is it a mobile internet access point, such as a MIFI.

"Dedicated" devices are devices that are not shared, where the student is allowed to take the device when they leave the school building to participate in learning outside of school. They are for single student use and are not shared with other students or household members.

"Sufficient" access means that the student does not regularly experience issues (slowdowns, buffering, disconnections, unreliable connection, etc.) while participating in required or assigned instruction and learning activities, as measured during peak household usage.

"Reliable" access should be judged against the goal of "All the Time" access, as indicated in the National Educational Technology Plan. The Plan states the expectation that technology-enabled learning should be available for all students, everywhere, all the time (NETP 2017).

Question 1: Did the school district issue your child a dedicated school or district owned device for their use during the school year?

"Yes" means the school district issued the student a dedicated device to use at home.

"No" means that the school district has not issued a dedicated device to the student to use at home.

Question 2: What is the device your child uses **most often** to complete learning activities away from school? (This can be a school-provided device or another device, whichever the student is most often using to complete their schoolwork.)

Choice can be a school-provided device or another device, whichever the student is most often using to complete their schoolwork.

DESKTOP LAPTOP TABLET CHROMEBOOK SMARTPHONE NO DEVICE

Please select a response other than "No Device" if you previously responded "Yes" to Question 1.

Question 3: Who is the provider of the primary learning device identified in question 2? (This can be a school-provided device or another device, whichever the student is most often using to complete their schoolwork.)

"School" means that the school district provided the device for the student to use.

"Personal" means that the student uses a device not provided by the school district.

"No Device" means the student does not have a device to use.

You should answer "No Device" if you previously responded "No Device" to Question 2.

Question 4: Is the primary learning device (identified in question 2) shared with anyone else in the household?

"Shared" means multiple students/people share the device for school or work. This can be a school provided device or another device, whichever the student is most often using to complete their schoolwork.

"Not Shared" means dedicated to one student. This can be a school provided device or another device, whichever the student is most often using to complete their schoolwork.

"No Device" means the student does not have a device to use.

You should answer "No Device" if you previously responded "No Device" to Questions 2 and 3 respectively.

Question 5: Is the primary learning device (identified in question 2) sufficient for your child to fully participate in all learning activities away from school?

"Yes" means the student has a sufficient device (a computer or computing device such as a laptop, desktop, Chromebook, or full-sized iPad or other tablet), that is able to connect to the internet (even if an internet connection is not always available); has a screen size of at least 9.7"; has a keyboard (on-screen or external) and a mouse, touchscreen, or touchpad; and can run all applications, allowing for full participation in learning without or with very limited issues.

"No" means that the student does not have a device that meets the criteria above.

You should answer "No" if you previously responded "No Device" to Questions 2, 3, and 4 respectively.

Question 6: Is your child able to access the internet in their primary place of residence?

"Yes" means the student has internet access in their primary residence where the student typically resides.

"No" means the student does not have internet access in their primary residence.

Note: If student has multiple residences that share equal time, answer this question according to the residence that has the more limited access

Question 7: What is the primary type of internet service used in your child's primary place of residence?

"Residential Broadband" means a high-bandwidth connection to the Internet at your home by using a cable (fiber or coaxial) connected to an Internet service provider such as Spectrum, AT+T, Frontier, etc.

"Cellular" means wireless Internet access delivered through cellular towers to computers and other devices. Uses your cell phone provider for internet access.

"Mobile Hotspot" means a wireless access point created by a dedicated hardware device or a smartphone feature that shares the phone's cellular data. For example, a cellphone or a device like a Kajeet, Verizon Jetpack, Netgear Nighthawk or MiFi.

"Community WiFi" means allowing Internet connection to visitors and guests using an existing Wi-Fi infrastructure in the community such as a library, café, hotel, etc.

"Satellite" means a wireless connection through the use of a satellite dish located on your property.

"Dial up" means a service that allows connectivity to the Internet by using a modem and a standard telephone line.

"DSL" Digital Subscriber Line means a high-speed bandwidth connection from a phone wall jack on an existing telephone network that works within the frequencies so you can use the Internet while making phone calls.

"Other" means none of the other choices apply.

"None" means that you do not have Internet access in your home.

You should answer "None" if you previously responded "No" to Question 6.

Question 8: In their primary residence, can your child complete the full range of learning activities, including video streaming and assignment upload, without interruptions caused by slow or poor internet performance?

"Yes" means the student experiences very few or no interruptions in learning activities caused by poor internet performance in their primary place of residence.

"No" means the student regularly experiences interruptions and is unable to complete all learning activities due to poor internet performance in their primary place of residence or lack of internet access.

You should answer "No" if you previously responded "No" and "None" to Questions 6 and 7 respectively.

Question 9: What, if any, is the primary barrier to having sufficient and reliable internet access in your child's primary place of residence?

"Availability" means you cannot actually get fiber (or satellite or cell service) at your home.

"Cost" means the service available to your neighborhood is cost prohibitive.

"None" means that your child has sufficient and reliable access to the internet.

"Other" means none of the other choices apply.

You should answer "None" if you previously responded "Yes" to Question 8.

Household Income Eligibility Form

Why we need you to fill out the Household Income Eligibility Form when meals are free anyway?

It is important for EVERY family to fill out this form because doing so impacts the amount of aid the district receives. School Aid directly impacts programs for students. Lyncourt School District receives funding from the state and federal governments to support the needs of low-income students. For each student who qualifies for free or reduced-price meals, our district receives thousands of additional dollars in funding. Studies show that many eligible students, in particular middle school and high school students, do not complete this form each year, leaving thousands of dollars in funding for Lyncourt School District on the table.

What if my child doesn't want to eat school lunch? Why should I fill out the form?

Even if your child chooses to bring their own lunch, or goes to a school where all students receive free lunch, filling out the form is very important! It ensures that your school gets all of the funding and benefits available to support teachers and students. In addition, even if your child does not eat school lunch, students who qualify for free lunch also can receive other benefits like:

Discounts for your family on utilities and internet service Reduced fees for SAT and ACT tests and college applications Reduced College Application Fees Future P-EBT Benefits

Is the Information I Submit Confidential?

The information you submit on the Free and Reduced application cannot be shared by the Food Service Department.

Personal information submitted on the form is not shared with the state or federal government: only the number of students who qualify for free or reduced lunch is shared.

Principals and teachers are not told which students qualify for free or reduced lunch benefits. Lyncourt School District does not share information with other organizations that provide benefits. But if your child does qualify for free or reduced-price lunch, you may use the eligibility form provided by Lyncourt School District to qualify for other benefits through providers like Spectrum Cable and National Grid.

Please call the Food Service Office at (315) 455-7571 ext.4 if you need more information.
