

**SUBJECT: HOME-SCHOOLING**

The District will attempt to cooperate with parents who wish to provide home instruction for their children. A child who is educated at home should receive an education in a manner consistent with an educational plan and at least substantially equivalent to that given to students of like age and attainments in the local public schools. The required subjects should be taught in a competent, systematic, and sequential manner, specifically in relation to the required courses set forth in Commissioner's regulation Section 100.10.

Primary responsibility for determining compliance with Commissioner's Regulations addressing home instruction rests with the Superintendent.

**Provision of Services to Home-Instructed Students**

Home-instructed students are not awarded a high school diploma. A high school diploma may only be awarded to a student enrolled in a registered secondary school who has completed all program requirements set by the Board of Regents or the District.

a) Extracurricular Participation

Students instructed at home are *not* eligible to participate in interscholastic or intramural sports. Commissioner's Regulations mandate that only students enrolled in the public school are allowed to participate in interscholastic or intramural sports. However, the District *does* permit home-instructed students to participate in other school-sponsored extracurricular activities.

b) Textbooks and Materials

The District is not required to loan available textbooks and other materials (e.g., library materials, microscopes, computer software, eTextbooks, and movie projectors) to home-instructed students. However, the District may provide home-instructed students with its current program textbooks and materials, if requested by the student's parent/caregiver.

c) Health Services

The District is *not required* to furnish health services.

d) Remedial Programs

The District *is not responsible* for providing remedial programs.

e) Career and Technical/Gifted Education

The District is *not authorized* to provide Career and Technical (Occupational) or gifted educational programs to home-instructed students.

**SUBJECT: HOME-SCHOOLING (Cont'd.)**f) Special Education Services

Solely for the purpose of Education Law Section 3602-c, home-instructed students with disabilities are deemed to be students enrolled in and attending a nonpublic school, which enables them to receive special education services, as well as to be included for computation of state aid for the education by the District.

The Committee on Special Education will develop an Individualized Education Services Program (IESP) for the student. The IESP will be developed in the same manner and with the same content as an individualized education program. The Board will determine a location where special education services will be provided to a home-instructed student. This location may, but is not required to be, in the student's home.

g) Use of School Facilities

Students instructed at home will be allowed to use school facilities provided that there is a mutual agreement on the part of all involved parties.
